Professional Summary

Quantitative physician-scientist with over 5 years of experience developing new approaches to leverage real-world health data for biomedical research

- Analyzed large health data sets using SQL, Python, and R
- Created and evaluated a resource to map ICD-10 billing codes to biologically meaningful phenotypes for genotype-phenotype association analyses in large biobanks
- Collaborated effectively with cross-functional teams to produce 6 publications

Education

2022 MD Vanderbilt University School of Medicine, Nashville, TN

2021 PhD in Biomedical Informatics, Vanderbilt University School of Medicine, Nashville, TN

2020 MS in Biomedical Informatics, Vanderbilt University School of Medicine, Nashville, TN

2011 BS in Biological Sciences, Cornell University, Ithaca, NY

Skills and Techniques

Domain expertise

- Developed and applied methods for analyzing real-world data from EHRs
- Direct experience working with medical terminologies and ontologies
- Engineered multi-dimensional phenotypes using billing codes from EHRs, medication data, and laboratory measurements

Math & statistics: experience in applying linear/non-linear regression models, dimensionality reduction, and clustering methods

Coding skills: Python, R, SQL

Experience

MD/PhD student, Vanderbilt University School of Medicine

2014 - present

PhD in Biomedical Informatics

Advisor: Wei-Qi Wei, MD, PhD

- Pioneered a computational approach combining diverse datasets, including longitudinal health data, to generate drug repurposing hypotheses
- Created and evaluated a resource to transform ICD-10 billing codes to computable phenotypes for genotype-phenotype association analyses in large biobanks
- Worked collaboratively with a cross-functional team of clinicians, data scientists, and statisticians to improve cardiovascular event prediction using machine learning

Service

Representative of the Student Advisory Committee

2021 - present

MD/PhD program, Vanderbilt University School of Medicine

- Partnered with 3 faculty members and 23 classmates to resolve arising problems, address important questions, and facilitate programming in the MD/PhD program

President

2018 - 2020

American Physician Scientists Association Vanderbilt Chapter

- Invited and planned visits for 4 physician-scientist speakers
- Reviewed and submitted applications from 8 students for the national physician-scientist conference
